EDUCATION

DUKE UNIVERSITY

Master of Environmental Management (Concentration: Energy, Economics)

Durham, USA

Aug. 2025—present

SEOUL NATIONAL UNIVERSITY

Bachelor of Arts in Economics & Bachelor of Sciences Environment

Seoul, Korea

Mar. 2020—Feb. 2025

ACADEMIC INTERESTS

International Climate Policy | Energy Transition | Climate Finance | Developing Countries

CONFERENCE & WORKING PAPER

(Accepted) 47th International Association for Energy Economics (IAEE) 2026

Santiago, Chile

Jul. 2026

- Title: Energy Transition in High Interest Rates: The Total Cost of Ownership of Boda Boda in Kenya

[Global Energy Access Network \(Glean\) Case Study Vol 4. \(2026\)](#)

Durham, USA

Apr. 2026

- Title: Policy Improvements for Alleviating Elderly Energy Poverty in South Korea

[Korean Solar Energy Society \(KSES\) Annual Autumn Conference](#)

Jeju Island, Korea

Oct. 2022

- Title: Analysis of environmental impact of PV facilities using remote sensing

[SNU-German Embassy Climate Change Youth Conference](#)

Seoul, Korea

Nov. 2021

- Title: Appropriate technology is an alternative that can provide sustainability in mitigating climate change

RESEARCH EXPERIENCES

Research Assistant, James E. Rogers Energy Access Project

Durham, USA

Duke University, Supervised by Senior Policy Associate, Liilnna Teji

Sep 2025 – present

- Conducted economic and policy analysis of Kenya's transport electrification transition, examining EV adoption barriers, fiscal implications, and infrastructure financing challenges
- Co-authoring a forthcoming paper, in collaboration with EED Advisory, using field-level EV operational data from Kenya to assess electrification economics and policy implications for emerging economies.

Research Assistant, Critical Minerals Nexus: Geosciences, Engineering and Policy

Durham, USA

Duke University, Supervised by Prof, Erika Weinthal

Jan 2026 – present

- Developed a database of Impact and Benefit Agreements to evaluate how mining communities share in the benefits of critical mineral development during the energy transition.
- Systematically organized complex legal documents, utilizing Excel to extract, code, and structure key data points

Researcher, Climate Economic Policy Laboratory

Seoul, Korea

Seoul National University, Supervised by Prof, Jong Hyun Yoo

Jan 2025 — Apr 2025

- Developed estimates of Korea's social cost of carbon using the PAGE model and assessed adaptation policy impacts to evaluate calibration-method reliability under uncertainty.
- Improved abatement cost parameterization for social cost of carbon estimation as part of a Korean Ministry of Environment research initiative.

Student Researcher, Energy GIS Laboratory

Seoul, Korea

Seoul National University, Supervised by Prof, Hyeong Dong Park

April 2022 — Jan 2023

- Conducted environmental impact analyses using remote sensing data and presented research on the environmental effects of photovoltaic (PV) facilities
- **Won 1st prize in Renewable Energy Power Plant Location Optimization with GIS contest** for finding optimal places for offshore wind plants in South Korea

Student Researcher, SNU FINANCIAL & ECONOMIC Research Club

Seoul, Korea

Seoul National University, Prof, Yoon Jae Whang

Mar. 2022 — Nov. 2024

- Conducted a ten-year panel analysis of Korean labor market and health expenditure data to estimate the Value of Statistical Life, contributing to understanding how societies value mortality risk and environmental health impacts.

WORK EXPERIENCE

MFM Korea (Global Nonprofit Start-up)

Dhaka, Khulna Bangladesh

Cofounder (CFO)

Feb. 2022 — Dec 2023

- Conducted **field interviews with 232 community members and women workers** in Bangladesh to assess local environmental and socioeconomic challenges
- Led a project to upcycle shrimp shell waste for water pollution remediation in Khulna, Bangladesh, employing local women and partnering with the women's NGO WADA.

Population Institute (NGO)

Research Intern

Washington D.C, USA

May. 2026 — (exp)Aug. 2026

- Author policy op-eds examining how energy shocks influence household decision-making, women's labor force participation, and long-term welfare outcomes.
- Develop research-based fact sheets on family planning facilitators and the consequences of funding cuts for family planning programs.

Tae Jae FCI (Think Tank)

ASEAN Economic Policy Research Intern, ASEAN TF Team

Seoul, Korea

Oct. 2023 — Dec 2023

- Conducted comparing analysis of economic policy between EU and ASEAN in terms of Digital Transition
- Wrote ASEAN's Basic economic preview paper and conducted daily issue clipping regarding job, medical, cultural, education industry

AWARDS

- Judge's Choice of Duke Climate Make-a-ton contest (2026)
- **1st prize of the Hyundai H-on dream startup contest (2023)**
- **1st prize of the SK NPO startup contest (2022)**
- **1st prize in Renewable Energy Power Plant Location Optimization with GIS contest (2022)**
- 3rd prize in SNU social contributions contest (2022)
- **Honored SNU-German Embassy Climate Change Youth Conference (2021)**
- 2nd prize in Appropriate Technology Design Contest (2020)
- 3rd prize in SNU social contributions contest (2020)

EXTRACURRICULAR ACTIVITIES

Actress and Playwright, SNU Mock United Nation

Aug. 2020 — Nov. 2022

- Represented Switzerland in simulations addressing global governance issues including vaccine patent equity and international cooperation.

Vice President, SNU International Student Buddy club

Aug.2021 — Jun. 2022

- Conducted NPV calculation for the budget management as a treasure and arrange several festivals for more than 600 people

President, Volunteering Engineers & Scientists of SNU

Mar. 2020 — Nov. 2022

- Developed sign language learning matching website using Java Script and won **2nd prize of the appropriate contest (2020)**

VOLUNTEER ACTIVITIES

Teaching Volunteering in SNU

Jan. 2024 — May.2025

- Providing educational support to underprivileged students who experienced domestic violence

Mentor, K-lab SNU digital transformers

Sep. 2021 — July. 2022

Seoul National University Social Contribution Association, Prof, Hyun Young Yun

- Delivered lectures on appropriate technology and provided hands-on **training in Arduino and Python programming** to Ulleung high school students in Ulleung island, empowering them to develop solutions for local challenges

Together Green mentoring

Jan. 2021 — Jun,2021

- Organizing mentorship to Goyang Foreign Language High School students on developing a campaign to raise awareness about plastic pollution, guiding them to execute environmental research projects

SKILLS AND CERTIFICATION

- Language: Korean (Native), English (Fluent)
- Professional Certificate: Certified Investment Manager (Fund manager of Korea)
- Compute Skills: Proficient in Microsoft Office Suite, Python, ArcGIS, R, Stata, Latex
